

Migration Matters

You're getting a new CRM system? Great! Let's make sure your current client details are moved across smoothly, easily, and for minimal cost.

Low
Migration
Costs

Moving to a new CRM system is difficult if you don't understand the challenges that can be involved, such as:

- Going from contact-centric to account-centric
- Transferring pick-lists
- Handling different email formats
- Dealing with child contacts
- Managing data differences
- Eliminating duplicate data

Move All
That You
Need.

In addition you need to consider how much client information needs to be brought across and how existing details will be used in your new CRM system.

All of this can be a lot of work!
